About Us

Established in 2017, Magical Flavors for Food Industries is one of the leading confectionery manufacturers in Egypt, producing jelly gummies and hard candies. Our candies are little flavorful pieces that will boost your happiness.

In 2022, we added a new marshmallow production line under the brand name "MARSHZONE" with a commitment to provide premium quality products that fulfill the needs of our clients and consumers.

To ensure the highest quality of our products, we always pay attention to every detail, starting from raw material sources, factory sanitization, and high-tech production lines. Providing premium-quality products to satisfy the daily needs of consumers is our main objective.

We also produce multi-vitamin gummies that contain our unique and mouthwatering flavors. In addition all of our products are halal and gluten free.
